Other Business

Mrs. Kimball's lot at Riverside has a large hole possibly made by a woodchuck. Terri will check this out. We discussed what to do about it.

Jim is checking with the Trustees of the Trust fund about using some of the money to pay for the damage done to stones at Riverside recently during a wind storm. Micum has already removed the downed branches and sent in a bill.

There was a solar light put up on the Eldred Shaw grave at Oceanside. It has been removed.

A descendant of the Frost family has made inquiries about the Frost Cemetery. Jim has sent her a reply.

Eric Johnson is interested in the veteran's buried in the Tarlton Cemetery. Jim has sent him some information and Carol will send the information she has on these graves.

Carol has contacted Kai about doing gravestone repair work. He'll be here later this week.
