Re: Wentworth Road Pedestrian Improvements Project
New Castle 42517, X-A004(889)
Transportation Alternatives Program (TAP)

Public Notice
LOCAL CONCERNS MEETING
Wentworth Road Pedestrian Improvements Project
State Project Number: 42517, Federal Project Number: X-A004(889)

The Public is invited to attend a Local Concerns Meeting for the Wentworth Road Pedestrian Improvements Project on Wednesday, July 21, 2021 at 6:00 PM at the New Castle Recreation Building at 301 Wentworth Road, New Castle, NH. The Town's consultant, CMA Engineers, will be presenting information on the proposed project. This project will include improvements for bicycle and pedestrian travel to improve safety, visibility, and create bike/ped/vehicle separation to the extent practical within the State of New Hampshire's existing right-of-way (ROW). The study limits will include approximately 700' of Wentworth Road (NH Route 1B) from the Beach Hill Road to Pit Lane.

The intent of the meeting is to collect input from the public, municipal officials, regulatory and resource agencies, and abutting property owners on their ideas and concerns relative to the existing vehicular and pedestrian conditions along Wentworth Road. Information gathered at the Local Concerns Meeting will be used to develop design alternatives that will be presented at a subsequent meeting.

Contact Ken McDonald II, Administrative Project Coordinator for the Town of New Castle, adminproject@newcastlenh.org or (603) 431-6710 ext. 10, with questions.
