

Hydrant Flushing

June 22, 2021

8am to 4pm

New Castle DPW will perform routine flushing of fire hydrants along the New Castle Water System line on June 22, 2021 from 8am to 4pm.

You may experience low water pressure while flushing takes place.

Flushing can result in discoloration of tap water so residents should refrain from washing laundry during these hours to avoid any potential discoloration of clothing.
