#### New Castle Public Library

There's nothing to match curling up with a good book when there's a repair job to be done around the house. ~ Joe Ryan

We hope community members have curled up with good books as we renovated the library. On December 30<sup>th</sup> we moved out of the library and over the next two weeks installed new carpet tiles and painted the interior of the library. We certainly got our money's worth out of our original carpet, which was installed in 1990. And we no longer have pink walls and gray trim. Please visit us to see our new, updated look! Thank you for your patience during this project – it is so nice to be open again.

In 2013 the New Castle Public Library received a \$10,000 bequest from The John Butler Smith Trust and a \$5,000 bequest from The Gladys L. Smith Trust. Our library renovation was made possible in part by these generous gifts.

After a four week break (for the holidays and renovations), our “**Drop in for a Stitch**” **Knitting Group** started meeting again on Tuesday, January 21<sup>st</sup> at 3pm. Please join us to knit, crochet or needlepoint. No need to sign up, come when you can.

A reminder that the **Library Book Group** meets the first Wednesday of each month and is always open to new members. Each year the group reads a wide variety of fiction and non-fiction. If you are interested, please stop by the library for a book list for 2014.

## DID YOU KNOW????

The average showerhead spits out 2.5 gallons of water per minute. That means that a person who takes a 10 minute shower every morning uses over 9,000 gallons of water a year.

If your shower fills a one gallon bucket in less than 20 seconds, you should replace the shower head with a low flow head. It takes 70 gallons of water to fill a tub. Three quarters of all water is used in the bathroom, and the toilet accounts for 28 percent of use. The average household uses 130,000 gallons per year.

The sewer rate for the Town of New Castle is \$11.38 per unit with a 20 unit minimum which equates to \$227.60 for every four months. The water rate is \$2.94 per unit with a 20 unit minimum which equates to \$58.80 for every four months. Those on the New Castle system pay \$286.40 every four months.

## EMERGENCY GENERATOR SAFETY

Tips courtesy of PSNH:

- Never operate generators inside of a home, garage, basement, carport or partially or enclosed space, additionally not near doors or windows.
- Store fuel for generators in properly labeled containers.
- Carbon monoxide detectors with battery backup should be used in nearby enclosed spaces to monitor levels.
- Make sure that extension cords used with generators are rated for the load.

The Town Hall was built in 1897 as a lodge with the town purchasing the building in 1927 to serve as the town hall. There were modifications made to the building in the 1970's to accommodate office space.

# Nové Hradý prepares its welcome

The next gathering of the Newcastles of the World will be in the town of Nové Hradý in the Czech Republic from Monday 28 April 2014 until the closing dinner on Saturday 3 May. Mayor Vladimír Hokr and his organising team (pictured right) are well into detailed planning, and we're

The castle (above) and, below, the Napoleonica chateau, among our conference venues)

sure we'll have a wonderful time in this beautiful town in South Bohemia, just 1 km from the Austrian border.

Coaches will bring delegates from Prague airport on Monday 28th daytime or the afternoon of Sunday 27th, but for those wishing to arrive earlier there will be events in Nové Hradý to enjoy over the weekend of 26/27. At the end of the conference, Nové Hradý wish to encourage delegates to visit the other Nové Hradý in the Czech Republic (Zamek Nové Hradý in Pardubice area on the way back to Prague, east of the capital). Transport will be provided. Delegates can then go on to Prague for late afternoon flights or stay in Zamek Nové Hradý or Prague overnight and fly on Monday 5th. Registration details for the conference will be available soon on a dedicated website (and linked to ours).

Topics for the conference will include how we make best use of our culture, heritage, buildings and ecology to promote our Newcastles and our lifestyles as places for people to live, to work and to visit as tourists - the "Newcastle card", best practice, regional and twin city cooperation, opportunities for developing business between us all, managing and minimising waste. Also: managing change in our communities (Nové Hradý will discuss the transition to democracy) And especially for youth delegates - unemployment, barriers and prejudice, intergenerational divisions, exchange programmes. Finally - financing the future development of our alliance.

## VISIT FROM MHT STUDENTS & STAFF

Last November, grades K-1-2 classes came for a tour of the New Castle Town Hall. The students were given a tour of the building along with a brief overview of the day to day operations of municipal government. Both myself and Accountant Deb Knowles were thrilled to have our first time ever visit from these MHT students and hope that this tradition continues. Deb Knowles said that she enjoyed all the questions the students had about the financial workings of the town.

We received a wonderful thank you note, pictures of the tour and a personal drawing from one of the students.

## **GREAT ISLAND GARDEN CLUB**

Great Island Garden Club (GIGC) activities continue throughout the winter months – this season learning about trimming and maintenance of our trees, a look towards spring as we learn more about growing plants from seeds, and hearing a how-to lecture on inviting butterflies into our yards with our landscaping choices. Our Club is now 58 strong, and we invite anyone with an interest in gardening to attend one of our monthly meetings or contact Jane Finn (436-7336). **Take a look at what's coming up on our calendar:**

### **February 4 Meeting New England Stone Walls**

The Club will host spouses/guests for an evening dinner and program entitled “New England Stone Walls”. Author Kevin Gardner’s informal talk will cover a few of the main topics of his book about New England stone walls, The Granite Kiss, touching on history, technique, stylistic development, and aesthetics. He will explain how New England came to acquire its thousands of miles of stone walls, the ways in which they and other dry stone structures were built, how their styles emerged and changed over time, and their significance to the New England landscape. Along the way, Kevin occupies himself building a miniature wall or walls on a tabletop, using tiny stones from a five-gallon bucket.

### **March 4 Meeting Gardening from Seeds**

Speaker Rita Wollmering will be speaking briefly to the club members about growing your garden from seed, before which she will participate in a hands-on lesson with the 3<sup>rd</sup> and 4<sup>th</sup> graders of the Maude Trefethen

School on the topic. Rita is the founder, manager, and grower of The HERB FARMacy.

### **April 1 Meeting Landscaping for Butterflies**

Speaker Michelle Mensinger will bring us an in-depth presentation of New England butterflies and their host plants, including several garden designs. Michelle is Bird and Butterfly Chair for the New England Federation of Garden Clubs, President of the New Hampshire Federation of Garden Clubs, and a native plant and wildflower advocate.

Coming next issue—our last regular meeting of the year with a program entitled “America’s Romance with the English Garden”, our annual Plant Sale in May, and our Annual Meeting/Luncheon for Members.

## RESIDENTS PASSING

By Jim Cerny

With awareness of many deaths and of time passing, I'm drawn to the first stanza of a poem by Emily Dickinson, particularly the phrase *Dum vivimus vivamus* – “While we live, let us live.”

*Sic transit gloria mundi*  
*How doth the busy bee*  
*Dum vivimus vivamus*  
*I stay mine enemy!*

There were 5 deaths of those who were current New Castle residents in 2013, and another 7 deaths of those who were former or part-time residents. There were 8 actual burials – 5 in Oceanside and 3 in Riverside
