

RYE BEACH
LANDSCAPING INC.

As planned, Ben Holmes, from Rye Beach Landscaping, came to New Castle last Thursday to mark the path that will extend from Rodgers Blvd. to Beach Hill Road. He spent a lot of time deciding the best route, trying to skirt stone outcroppings, minimize the need for tree removal, stay a distance from the road, accommodate DOT and ADA guidelines and establish an aesthetically pleasing path. It was interesting to watch the process. He marked the path with bright pink spray paint for now and will return to mark it with wooden stakes. This path promises to be a very special segment of the Safepath project.
