

An important message from the State of New Hampshire about the COVID-19 Vaccine:

If you have scheduled your appointment for your second dose and are happy with the appointment, please disregard this message.

The State has actively worked to open up additional second dose appointments for the COVID-19 vaccine. Everyone who has received a first dose will have the opportunity to receive their second dose.

On Tuesday, February 2, 2021, at 8:00 AM, additional second dose appointments and clinics will be available for scheduling in CDC's VAMS scheduling system.

Here's what you need to know:

- **If you have been unable to schedule your second dose appointment**, please visit <https://vams.cdc.gov/> on or after Tuesday, February 2, 2021 and login with the same username and password that you used to schedule your first appointment. Follow the same process to schedule your second dose.
- **If you already have a second dose appointment scheduled but would like to reschedule for an earlier date**, please visit <https://vams.cdc.gov/> on or after Tuesday, February 2, 2021 and login with the same username and password that you used to schedule your appointments and cancel your appointment. You will then be given the option to schedule a new second dose appointment. **Important:** Please be sure that after you cancel your current appointment, you complete the process by scheduling a new appointment in the system.
- Your username is your email address that received this email. You chose your password when you created your account. If you do not remember your password, click the "Forgot Password?" link on the VAMS login screen to reset your password.
- These appointments are **only** available to people that have already received their first dose and are scheduling their second dose. Individuals that have **not** scheduled their first dose will not be able to view or select these appointments.

The State of New Hampshire will send a reminder email with a link, along with helpful hints on how to schedule or reschedule your second dose appointments on Monday, February 1, 2021. The email will come from no-reply@nh.gov.

Thank you for your patience and cooperation.
